

In today's changing power system

There's one place you can go to get the knowledge you need

You and your organisation need to keep up with the changing world of power system expertise. CIGRE offers members access to the world's foremost global community and its world leading knowledge programme, expert people and publications.

Since our founding in Paris France in 1921, as a not for profit association, sharing and developing knowledge has been intrinsic to our culture. Today CIGRE is present in over 90 countries, with more than 17000 professionals collaborating for power system expertise and enabling sustainable electricity for all.

With our low through high voltage end to end scope and comprehensive global presence, there really is one place you can go to get the knowledge you need.

930+ Technical Brochures

Access a library of in-depth [Technical Brochures](#) growing at around 40 per year and spanning every subject in the power system.
